E-Teaching-Learning Method Used: The extended online sessions via Zoom app were conducted using self-prepared power-point presentation. Before conducting these online sessions students were asked to share their queries and doubts related to all the e-learning tasks and presentation topics via Google Classroom groups. These sessions were organised to address students' queries/doubts and enable a shared understanding of the given topic and the related concepts of E.4 Paper in a more interactive manner.

Students were encouraged to participate in the discussion sessions during the power-point presentation to ensure a more active and meaningful participation. Students have been suggested to refer to all the e-learning tasks, exercises given and references attached in them for their further understanding.
